MUHAMMAD UMAR KHALID

Software Developer

umer.muhammad1010@hotmail.com 03044960269 linkedin.com/in/muhammadumar1752

Professional Summary

Software Developer specializing in .NET Core and full-stack technologies, with expertise in designing scalable enterprise applications using ASP.NET Core, RESTful APIs, SQL Server, PostgresQL, and AI integrations. Proven skills in legacy system migration, performance optimization, and Agile collaboration to deliver robust, maintainable solutions.

Work Experience

Software Developer, *Meissassoft* 2024 – Present

- Refactored and modernized legacy applications and RESTful APIs to significantly enhance performance, code quality, maintainability, and scalability
- Led migration of legacy .NET Framework applications to modern .NET (Core/.NET 8/9/10), enhancing performance, maintainability, scalability, and long-term platform support
- Led development and enhancement of Developer Portal and MCP (Model Context Protocol) integrations to enable AI-powered workflows, tool connectivity, and improved developer experience
- Designed, developed, and delivered enterprise applications and features using ASP.NET Core, REST APIs, Entity Framework Core, PostgreSQL, and cloud-native development practices
- Optimized PostgreSQL database design, indexing strategies, and query performance to support high-volume transactional workloads and enhance system responsiveness
- Architected and implemented secure authentication and authorization solutions leveraging OAuth 2.0, OpenID Connect, and modern identity management practices
- Collaborated with clients, product owners, and stakeholders to gather requirements, provide technical consultation, define solution architecture, and ensure successful project delivery
- Contributed to solution architecture, technical roadmaps, estimation, release planning, and Agile delivery processes across multiple enterprise projects
- Developed and integrated third-party APIs, external services, and enterprise systems to streamline business workflows and enable seamless data exchange
- Collaborated with QA teams to develop automated testing strategies, enhance code coverage, and reduce production defects through continuous quality improvements
- Delivered production support, conducted root-cause analysis, fixed bugs, and troubleshoot performance issues for business-critical applications to ensure high system reliability and minimal downtime
- Evaluated and adopted emerging technologies, frameworks, and security best practices to enhance application security, compliance, and platform capabilities
- Conducted code reviews, established development standards, and mentored junior developers to enhance engineering excellence, productivity, and knowledge sharing

Full Stack Web Developer / Backend Developer, *Raheem Solutions* 2023 – 2024

- Currently, I hold a dynamic role as a Full Stack Developer, actively engaged in diverse and comprehensive tasks that span the entire development spectrum.
- My proficiency extends across a multitude of technologies, including .NET, Node.js, .NET Core, MAUI, RESTful API, MVC, SQL, Angular, Elasticsearch, Blazor, Mud Blazor, Electron, Telerik, and RDLC Reporting.
- In my current capacity, I am responsible for the development, and maintenance of robust and scalable applications that cater to our organization's evolving needs.
- End-to-End Development: Oversee and actively contribute to the complete life cycle of application development, from conceptualization and design to implementation and deployment.
- Technology Integration: Seamlessly integrate and leverage the capabilities of .NET, .NET Core, MAUI, RESTful API, MVC, SQL, Angular, Elasticsearch, Blazor, Mud Blazor, Electron, Node.js, Telerik, and RDLC Reporting to enhance the functionality and performance of our applications.
- Cross-Functional Collaboration: Work closely with cross-functional teams to understand business requirements, providing innovative solutions that align with organizational goals.
- Application Maintenance: Ensure the ongoing maintenance, optimization, and troubleshooting of existing applications, striving for continuous improvement.
- Quality Assurance: Adhere to best practices in object-oriented programming and implement test-driven development methodologies to deliver high-quality code and maintain exceptional standards.
- Technology Exploration: Stay abreast of emerging technologies, assessing their relevance and potential incorporation into our tech stack to ensure our applications remain cutting-edge.

Graphic Designer / Graphics Designer, *Hizone* 2021 – 2023

- I work in Hizone as a Graphic designer and Video editor.
- My work area is to handle designing, photo manipulation. . . etc and social media(Facebook, twitter, Instagram, Pinterest) posts designing, banner designing, and other relative things for social media.
- Also, I work as a video editor to create videos for youtube.

Photo Editor / Graphic Designer, *Benchmark* 2020 – 2021

- I work in Benchmark as a Graphic designer and video editor.
- My work area is to handle designing, photo manipulation, photo editing and enhancement. . .etc.
- Also, I work as a video editor to edit reviews and other video projects.

Graphic Designer / Graphics Designer, *PNY Trainings* 2020 – 2020

- I work in PNY Trainings as a Graphic designer and video editor intern.
- My work area is to handle Logo designing, business visiting card, letterhead. . . etc designing and social media posts, banner, and other relative things for social media marketing.
- Also, I work as a video editor to edit reviews, tutorials and other video projects.
- I also create motion graphics for advertisement works.
- I manage Facebook and Youtube channel for PNY Trainings.

Data Entry Operator / Computer Operator, *Majeed Sons* 2018 – 2020

- My work is to update data online on daily basis and to maintain daily and monthly reports.
- My duty also include billing generating work.

Education

Bachelor of Science in Software Engineering, *Virtual University of Pakistan* 2023
Lahore, Pakistan

Dot Net Development, *EVS Training Institute* 2021
Lahore, Pakistan

Graphic Designer Internship, *PNY Trainings* 2020
Lahore, Pakistan

Diploma of Frontend Development, *EVS Training Institute* 2019
Lahore, Pakistan

Diploma of Graphic Designing, *EVS Training Institute Lahore* 2019
Lahore, Pakistan

Intermediate, *Islamia College Lahore* 2018
Lahore, Pakistan

Matriculation, *The Aims School System* 2016
Pakistan

Core Skills

- .Net
- .NET Core
- ASP.NET Core
- C#
- SQL Server (Microsoft)
- PostgreSQL
- Mongo DB
- Entity Framework Core
- Blazor
- OAuth 2.0
- API Integration
- RESTful API
- Node.js
- JavaScript
- Bootstrap
- Agile Methodologies
- Code Review
- MAUI
- MVC
- Graphic Design

Certifications

Dot Net Development, EVS Training Institute
2021

Graphic Designer Internship, PNY Trainings
2020

Diploma of Frontend Development, EVS Training Institute
2019

Diploma of Graphic Designing, EVS Training Institute
2019
